

CHENGONI PRE-PRIMARY REPORT

INTERIM REPORT

After the Chengoni Pre-Primary Launch that took place on 19th July 2022, the Mission embarked on ensuring all required furniture and learning items were put in place.

Students who paid their registration and first fee installment were officially relocated to the new Chengoni Pre-Primary Unit. Classes have commenced with the PP1 unit which currently has 20 students and PP2 has 25 students. Most children are in their new school uniform.

Since the official opening of the school, students have been undergoing excellent learning experiences due to the new exposure of a well-equipped facility in terms of classroom furniture, kitchen and dining area, toilets and playground.

Interviews and recruitment were conducted and professional qualified teachers deployed to the school. Expected outcomes is quality education whereby students are able to interact fluently in English including other subjects taught in class.

A few photos annexed to the report captured the students whilst in class, during feeding and outside their classrooms.

PP1 & PP2 Students in class
