

## FILL MY CUP REPORT PROGRAM

According to an article on *Kenya web* of May 2022 most areas in Kenya have been experiencing Food insecurity. Three consecutive failed rainy seasons resulting in lost crops and an extremely high rate of livestock deaths have had a devastating effect on the livelihoods of communities. As a result of the above, Malnutrition rates remain high and could worsen if no immediate humanitarian assistance is provided. About 755,000 children under the age of five in Kenya will likely suffer from acute malnutrition throughout 2022 and need treatment.

In an attempt to combat with this issue Bilal Muslim Mission of Kenya with the Continuous support from WF-AID/AFED was able to provide a daily cup of porridge to Madrassah and Preprimary Children from all the 15 BMMKenya Centres.

Bilal Kenya was able to provide **739 cups** of porridge to preprimary students from Monday to Friday and **2,482 cups** of porridge to Madrassa students on Saturday and Sunday during May-July 2022.

The Feed a child Program has:

1. Increased energy levels of students.
2. Improved their ability to cope with a long day at school.
3. Improved their Immune System.
4. Had a positive impact on the academic performance of students.

### NO. OF BENEFICIARIES FROM MAY-JULY 2022

MADRASSAH

**2482**

PRE-PRIMARY

**739**

TOTAL

**3221**

## **Beneficiary Comments:**

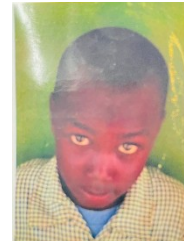

**Parent's name:** Mbuuze Tsuma  
**Child's Name:** Ngoka Mbuja  
**Age:** 14 yrs old **Madrasah:** Rabie  
**Centre:** Husseiniyah **Area:** Bahakanda

**Family Background:** Ngokas hails from a poverty stricken family whereas both parents are unemployed and depend on small scale farming to feed the family and earn a small income.

**Student benefit:** he would fall sick very often but the Feeding program has drastically improved his health.

**Changes in student academic:** he never used to like going anywhere, however he now looks forward going to Madrassah and also goes through his work once he is home.

**Parent's name:** Sauni Bakari  
**Child's Name:** Bakari Salim  
**Age:** 4 yrs old **PP:** 1  
**Centre:** AhlulBayt **Area:** Moyeni

**Family Background:** Bakari has 2 siblings. Both his parents don't have a steady income and depend on small casual jobs to support their family.

**Student benefit:** he is very active in class and extracurricular activities.

**Changes in student academic:** he attends classes regularly. Also there is an improvement in his academic performance.

**Parent's Name:** Said Fundi Mwacharo  
**Child's Name:** Amina Mghazo Said  
**Age:** 3 yrs old **PP:** 1  
**Centre:** Amani **Area:** Dembwa

**Family Background:** Amina is the fifth born among her siblings. She hails from a humble background. Both her parents strive to provide for the family.

**Student benefit:** both Parents are relieved due to the feeding program. They don't have to worry about their child being hungry for the whole day.

**Changes in student academic:** Amina has a notable improvement in her involvement during lessons.
